

The Greatest of All Gifts

A BIRKS Diamond as a gift rises superior to all other things material.

In its quality it is perfect, in the workmanship of its setting it is above comparison, while the pride of ownership it fosters is beyond that of any other form of merchandise.

Whether as a token of an engagement or in commemoration of a happy event, a Birks Diamond, for its perfection and its loveliness, is the gift of all gifts

A Meeting Place

The Union Cafeteria has always stood out as a meeting place. There over a friendly dish of tea or a hearty luncheon, friends gather to discuss the doings of the day.

Added to its charm as a rendezvous for the undergraduate body stands the Cafeteria's value as a place to eat. You will find that the food is fine and that prices have been based to meet the demands of the most economical end-of-the-month pocket-book.

SUCCESSFUL MEETING HELD BY COUNCIL

Discussed Letter of Senior Play Committee.

McLAGAN APPOINTED.

Propose to Form an Inter-Collegiate Gymnastic Meet.

Several important topics were discussed at a meeting of the Students' Council, which took place yesterday evening in the Union. The first business arose out of a letter to the Council from some members of the Senior Play Committee, who are desirous of forming at McGill a dramatic club such as those which exist at most of the large Universities on the Continent. Great interest has been evinced in this subject for a long time past, and the matter has been delayed to this time merely because no one assumed the responsibility of starting action sooner.

The Council are of the opinion that such an institution is needed here, and accordingly offered their support to the movement. They feel that such an organization should be started, and so notified those interested that they will be pleased to receive for consideration a constitution on which such a club may be operated.

The Gymnastic Club have been authorized to make arrangements to send a deputation to represent McGill at the forthcoming Intercollegiate Gymnastic Meet, which it is proposed to hold in Toronto or Kingston. This will be done on condition that the meet will become an annual affair, and so will sometime be staged at McGill. The men who have been turning out for this club include several who are very proficient at this branch of activity. Among them are Paul, Scott and Werrie, who made fine showings in last year's Wicksteed competition.

Jerry McLagan, who during the past year has very efficiently fulfilled the office of Manager of the Rugby team, was appointed to occupy the same position during the session of 1921-1922.

The scale of prices which are to prevail during the Intercollegiate Hockey season was decided upon, and will be in effect for the first game to be played in Montreal between McGill and Toronto on the fifth of next month. These prices will be a dollar and a quarter for the boxes and promenade seats, seventy-five cents for reserved seats, and fifty cents for general admittance.

Considerable discussion about the Boxing, Wrestling and Fencing Club and the approaching meets which it is to hold occupied the attention of the meeting. The Club was authorized to make several purchases which will provide adequate equipment for (Continued on Page 2.)

SECOND SKATING PARTY TO-NIGHT

Cold Should Result in Record Attendance at Popular Function.

The Y.M.C.A. and Y.W.C.A. plan to hold the second of their series of skating parties to-night on the Rink in the Hollow. While the previous Party was a success the gloom of pending examinations tended to mar the pleasure of the occasion. Now, however, exams are once again a matter of history and everyone can turn out and enjoy a good brisk skate in the hollow.

The students are asked to meet at the Hall at 7.30 p.m., where programmes will be filled out and then all will proceed to the rink. The "Hurdy Gurdy" as is usual will be in attendance and will render the necessary musical numbers. There will be ten numbers in all.

When skating has been finished, all will return to the "Hall" and enjoy the well-known "Y.M." hospitality. All students are urged to turn out and by their presence ensure the success of the evening.

What's On

TO-DAY.

5.00 p.m.—Meeting of Arts '19 in Union.

5.15 p.m.—Hockey: Science vs. Medicine.

5.15 p.m.—Science '22 hockey practice.

5.15 p.m.—Dr. Speer's lecture on "Life Service," at Molson Hall.

5.15 p.m.—B. W. and F. executive meeting at Union.

6.15 p.m.—Law Finals.

7.30 p.m.—Y.M.C.A. Skating Party.

8.00 p.m.—Lecture by W. A. Carlyle on "Rio Tinto," in Chemistry Building.

COMING.

Jan. 28—Union Formal Dance.

Jan. 28—High School Dance.

Jan. 28—Gymnastic Club.

Jan. 29—The Dansant at the R.V.C.

Jan. 31—Western Club supper.

Feb. 1—Philosophical Society.

Feb. 1—B. W. and F. Elimination.

Feb. 2—B. W. and F. Elimination.

Feb. 2—Ski Dash and Jumping trials.

Feb. 3—Cercle Francais.

Feb. 5—Ski Proficiency and Cross Country trials.

Feb. 5—Hockey: Varsity vs. McGill.

Feb. 7—Annual Dinner of Mechanical Club.

Feb. 8—Arch. Fancy Dress Ball.

Feb. 15—Hockey: Queens vs. McGill.

OPPORTUNITY TO HEAR DR. SPEER TO-DAY

Will Speak in Molson Hall At 5 p.m.

A GIFTED SPEAKER.

Life Service Will Be Special Subject of Important Address.

Dr. Robert E. Speer, who is to speak to a University audience in Molson Hall at five o'clock this evening, has been one of the outstanding figures in the public life of America during the last twenty-five years. America claims him as her own, but he has been as truly a citizen of the world, for, with John R. Mott, Sherwood Eddy, Robert Wilder and others, of his colleagues, he has established an international reputation as a great Christian leader. More than that, he has been a seer who has spoken out of deep experience to both youth and age in his own generation. Although a layman, he has been for many years one of the strong initiating and directing forces in some of the great movements both within and without the Christian Church.

Those who attended the Student Convention at Des Moines, Iowa, last year will recall him as one of the prominent figures in that great assembly, and will remember some of his striking sentences; "If religion is the greatest power in the world, religion is also the world's greatest peril," or "One of our greatest dangers is that we shall not think courageously enough of God." There was always a quiet attention throughout the audience of over seven thousand students when Dr. Speer spoke, and he was on the platform several times during the convention.

Those who attend the meeting at Molson Hall this evening are assured that they will hear a man who, on the platform and through his writing, has never failed to impress his audience with the power of his thought and the strength of his personality. But apart from the value of the particular message which Dr. Speer may deliver this evening, it will be worth while to hear a man who has filled so large a place in the life of North America, and who has contributed so much to the clarity of public vision.

Y.M.C.A. MEMBERSHIP.

Any man holding membership privileges in out-of-town Associations are entitled to some in local branches and may obtain transfers by application to Central Y.M.C.A. A special student membership with full privileges for months of February, March and April has been instituted, for a charge of four (\$4) dollars.

UNION DANCE BEGGARS ALL DESCRIPTION

1921 Dance Culmination of Many Years' Precedent.

MASTERFUL MUSIC.

Cosy Sitting Out Places, Special Supper, Excellent Floor and a Moon.

The perennial known as the Union House Committee bears promise of flowering out with a bloom of rare beauty on Friday next, Jan. 28th. A dance as perfect as this one is scarcer than the orchid, and years of careful cultivation have combined to make this one beyond parallel. From the time when the first Union House Committee combined to produce "A Minuet for Lodgers and Gentlemen," the Union Formal Dance has been the most popular of all the McGill formals. This one will be no exception, and bids fair to surpass all others in the excellence of its arrangements. The House Committee have spared no pains to make the dance on Friday night the hit of the season.

Sir Arthur and Lady Currie have very kindly consented to grace the dance with their presence. The list of patrons and patronesses also includes the names of Miss Hurlbutt, Professor and Mrs. F. B. Brown, Professor and Mrs. E. Brown, and Dr. and Mrs. J. A. MacMillan. In another issue it was stated that Professor C. J. MacMillan would be present, which was an error on the part of the reporter, and which is corrected in the above list.

One thing of importance, if it has to break all precedent by doing so, the dance will start on time. The sooner the dance starts the more time there will be to dance and to sit out—therefore come on time and enjoy the whole dance. It is scheduled to begin at 8.45.

In the matter of sitting out. This is the most important feature of a dance according to some authorities. Why, holding her hand behind a property palm, should cause more heart flutters than on the dance floor is a question; but it is a psychological fact for all that. Perhaps you have noticed at former dances how everyone makes a bee-line for a two-some accommodation on the divan, familiarly known as "the drab." So come down to the donement, the reason for all this discussion on divans—the committee have arranged for this tendency to congregate where there is just room for two—possibly a little less, by providing extra sitting-out places. These are reported by one well versed in the fine art of sitting out to be the best ever, and a most ingenious thought on the part of somebody. There will, therefore, be (Continued on Page 2.)

TERRA NOVANS SKATE TO-NIGHT

Newfoundland Club Will Attend M.A.A.A.

The members of the Newfoundland Club are jubilantly looking forward to their second annual skating party which will be held to-night at the M.A.A.A. Rink.

Those who attended a similar party last winter can recall many pleasant memories of the event, either of the rapturous whirl of a partner on the ice, or the more graceful waltz at the supper which followed.

All are expected to be at the Rink at 8.15 p.m., when the standing post will be chosen and the cards filled up.

Every arrangement possible has been made to make the evening a success, and it is safe in saying that there will be no regrets whatever for those who are attending this function. Complimentary tickets may still be obtained from C. F. Davies, Arts '22. J. O. Fraser, Med. '24. R. H. Le Messurier, Arts '23.

THURSDAY, JANUARY 27, 1921.

SELF-RELIANCE

Emerson tells us that self-reliance is the aversion of society. And yet he says, "whoso would be a man must be a non-conformist."

The purpose of a University is to train and develop the mind of the young man that he may take his place in society—a citizen capable of thinking and acting independently. To this end are directed the efforts of learned and experienced men who in their respective spheres of knowledge are masters. To the discourses delivered by these men the student is privileged to listen and to absorb, in a degree proportionate to his capability, the learning and personality characteristic of the respective professors. Such at least constitutes one important process involved in the University training. And yet of what material benefit are the brief hourly associations of the classroom? Truly they are of most appreciable value when merely considered as a component part of the system of education, but in themselves, of what avail are they?

But lectures are by no means depended upon to fulfill the purpose of the University. The need for a supplemental training results in the introduction of those tools of great men—books. With books to supplement the seed sown in the lecture room the student flourishes, progressing in knowledge and finally graduates—a scholar. But is this all? Has the purpose of a college education been attained? In above attempting to point out the aim of a University we did not attribute to it the mere production of a scholar, but rather of a citizen capable of independent thinking, and possessed of initiative. After all, of what real importance is mere book learning unless it is permeated and dominated by a self-reliant mind.

The bookish blockhead, ignorantly read, With loads of learned lumber in his head, has grievously erred and entirely missed the purpose at which a college education aims.

In such a case as the poet here describes there is assuredly something lacking—something which, were it present, would transform those "loads of learned lumber" into material of unlimited worth. The scholar has missed something without which all his "bookful" knowledge is valueless and a sodden, useless mass.

Lack of self-reliance is too often the wet blanket upon a career which with it might have excelled in brilliancy. This want of independence and initiative is unfortunately often exemplified in college men, as in cases where individuals content themselves with allowing others to solve the college difficulties, and are merely "driven cattle." The time eventually comes when the individual must stand alone, and must confront and solve difficulties by his own power. How will you stand the test when your turn comes? The answer to this question depends entirely upon the scope which your self-reliance is now allowed, for the present, will form the foundation for the future. "Insist on yourself, never imitate."

WANTED---SUPPORT

To-night the Red and White hockey exponents meet Shamrocks in a scheduled City League fixture. The game promises to be a fast one and some exciting hockey should be witnessed.

Apart altogether from this fact the game should be well worth watching by McGill students who are naturally anxious to find out just what kind of a fight McGill will be able to put up against Toronto in the game here on the 5th.

Last year the Routers' Club was of inestimable value to the football team in their gallant bid for championship honors. So far this season, however, there has been a noticeable lack of support given to the college hockey teams. To some extent this has undoubtedly been due to the exigencies of examination-time, but with these obstacles removed for a time at least, it is to be hoped that from now on we will be treated to a little real rooting and enthusiasm.

Last night's basketball game between McGill and M.A.A.A. was a brilliant exhibition and McGill carried off a well-deserved victory. It is to be regretted, however, that so few students found time to accompany the team to the Highlanders' Armory and extend to them their vocal assistance. An exception however must be made in favor

SWINGS and JABS

(By "Left Jab.")

It will be of interest to the boxers to know that the next practice will take place in the Armory of the Grenadier Guards on Thursday, at 8 p.m. sharp. The arrangement has been made for the benefit of the boxers, who will receive good practice by boxing with the men of the Grenadier Guards, who hold the reputation of being good men. The following men are requested to turn up: Chisholm, Edelberg, Brewer, Mirsky, Gamble, McMeens, Cope, Long, Ward, Shackell, McCulloch, Wolfe and Badger.

The last practice, held in the Molson Hall, was by all means a success. It was marked by the absence of the beginners, and the presence of all last year's men. Under the instructions of Coach McBrierty, the boxers went through three fast three-minute rounds of running and four rounds of boxing. The men then took their weights in preparation for next week, when the eliminations will be held. There is no doubt that the elimination contest will be a hummer. The men will have to go through three rounds of hard fighting to gain superiority over their opponents and make a position on the team.

John Long, who is all that his surname implies, was out at the last practice. He is getting into good condition for the eliminations and has a splendid chance to gain the championship of McGill a second time. While training, he went through several whirlwind rounds with Edelberg and McMeens, and showed up well, especially with the latter. Long is in the middleweight class, and weighs 162 pounds.

At last we have seen several heavyweights who have a splendid chance of making good. These are Badger and McMeen, of whom the former is in the light and the latter in the heavyweight class. This is the first time that these men have shown up, and judging by appearances they ought to become good, providing they undergo sufficient training. "Practice will make perfect" is the right motto for them to adopt at present.

Shackell is improving rapidly, and has but one and a half pounds to reduce to make his weight be 135 pounds straight. Last night he went through his training nicely, having boxed several rounds with the best men. Shackell is very fortunate to have Young Lewis, champion featherweight of Canada, for his friend. He works out with him quite frequently, which is of great advantage to him.

Brewer was not present at the last practice. Evidently the Commerce Freshman must be in splendid shape. If he gets along that way, he'll have a splendid chance in the eliminations. He is in the 145 pound class, and will have to dispute the position on the team with Ward, the welterweight champion of McGill. It appears that he will put a weak argument with the hard-hitting champion if he continues this way.

"Billy" Hughes, the Queen's boxing instructor, in an article in the Queen's Journal, expressed himself as having an excellent set of boxers this year. They consist of Bowman, 200 pounds; Wilson, 175; Day, 168; Smith, 148; Becking, 145; Holt, 135; Taylor, 135; O'Connor, 135; McMillan, 125; Doyle, 125; Doory, 118; Lewis, 118; Dettler, 118; Sugden, 110, and Holmes, 110. Judging by Hughes' opinion, Queen's has a splendid chance of winning the intercollegiate boxing fixtures; but it must not be forgotten that McGill is not dead; Old McGill is alive, as a matter of fact she's very much alive.

Blank sheets have been placed in the hands of the porter in the Union, where those who wish to compete in the elimination contests must sign their names. Those who intend to do so, don't leave it off for later, but do so immediately. No entries will be accepted after one o'clock on Tuesday afternoon.

RAW! RAW!

The night was raw
The party rawer,
I wish that
I had never sawer.

We were both stewed
She was the staweder,
I wish to 'ell
I'd never knowder.

Someone must lose—
I was the loser,
She craved more hootch,
Could I refuser?

The town was dry
And she was dryer,
Write-mule was all
That I could buyer.

We found a still
Approached it stiller,
And bought a quart
Of red "Blues Killer."

Now she was sick,
But I was sicker,
So I laid off
This bootleg liquor.

They call it splint
(Stirred with a splinter),
And now she reels
Where they don't have winter.

—Exchange.

From the "Daily" Files

Harriers Slip on Bad Road — "The Great Heart of India"
—McGill Confers Honorary LL.D. on H.R.H. the Prince of Wales — Anti-University Charges at Harvard — Dr. Lauterman's Address — Unveiling of Memorial For Alexander Graham Bell at Brantford.

October Thirty-First.

1911.—McGill overwhelmed Varsity in the great track meet of the year, when she made 68 points, and Varsity 41. The results of the meet were at no time in doubt, as the splendidly-balanced team once more came into its own.

A splendid programme lasted till midnight when Varsity's team was defeated at a Union Smoker. The gathering was voted the best of the year.

The McGill English Rugbyists inflicted a crushing defeat on the Montreal team when they whitewashed the latter by a score of 20 to 0.

1912.—The Science Undergraduate Society held a very successful meeting. Mr. D. H. Brown addressed a large audience on the Nickel Industry.

A very fast practice was held in preparation for the game with Queen's. There were only two absentees from the speedy workout which displayed the team's proficiency in trick plays.

1913.—Several of the classes in the three faculties passed resolutions favoring the re-establishment of Theatre Nights. These classes were: Sci. '15, Arts '15, Arts '16, Med. '17, Med. '18.

The pressing need of interested workers was urged at a Social Service meeting in the Strathcona Hall. Mr. Bradford made this urgent request in a discussion of several social problems.

A Copenhagen professor, Dr. Fibiger, made an astounding discovery. He claimed, and supported his claim with a convincing proof, that cancer was caused by the eating of raw foods.

1914.—Harriers, in a practice run, slipped on a very bad part of the road, and narrowly escaped being run over by an automobile. Apart from a few skinned knees, no harm was done.

A review appeared in the "Daily" of Von Bernhard's "Germany and the Next War." The Prussian General showed a remarkable foresight and predicted the actions of the British and German fleets and the destruction of Germany's overseas commerce.

1916.—The great heart of India is absolutely loyal to the Empire," was the burden of an address in the Strathcona Hall, by Murray G. Brooks, '08.

Macdonald College Sophomores took first honors in the annual sports day athletics. The second year men of the Faculty of Agriculture cleaned up the events on the track, gained 63 points, and captured the first and second individual cups and the Relay Cup. The individual cup went to Graham.

1919.—McGill conferred the honorary degree of Doctor of Laws upon His Royal Highness the Prince of Wales. A fitting welcome was given to Canada's Royal Visitor at noon. Members of the Faculty appeared in their academic dress; students were lined up on Sherbrooke Street, and cheered H.R.H. as he passed; all lectures were suspended from 11 a.m. to 1 p.m. The Convocation Hall was the scene of the historic event itself. Here, His Royal Highness delivered an excellent address. The Grenadier Guards' Band furnished excellent music.

November First.

1911.—Sensational charges against Harvard University were ably refuted in the College Monthly. The anti-University writer received sharp treatment from the editor of the paper. The "Harvard Monthly" absolutely denied the Chicagoan's assertion that "fifteen per cent. of college men go to the bad."

Mr. Lee Schubert, one of the best known theatrical managers of the day, strongly advised the establishing of courses in dramatics in all universities.

Several prominent McGill graduates visited the University and paid tribute to the scenes of their labors. Among these were: Messrs. Cook (then editor of the Martlet), Forbes, Little and Beckwith.

1912.—The McGill Water Polo players defeated the Montreal Swimming Club in both the Senior and Intermediate games. A very large crowd witnessed the Seniors winning by a score of 3 to 2, and the Intermediates by that of 5 to 1. George Hodgson's work on the second team was the feature of the evening.

1913.—Shaughnessy was none too confident over the outcome of today's game with Queen's. The latter's team had strengthened materially since the beginning of the season, while the home team was very weak to make much of an opposition.

The Harriers held a successful run, and White, of Macdonald College,

made on excellent time in the first tryout for the intercollegiate meet.

1915.—A practical talk in connection with the war was delivered in the American Presbyterian Church by Dr. A. W. Thornton, of the Department of Dentistry. It was his opinion that the preservation of civilization should be the main issue, and that only a united effort was necessary to gain victory.

The Railway Club held its first excursion of the year when it made a visit to the Frontenac Breweries. The plant was modelled from one of the large breweries in the States, and was said to be the last word in design and construction.

The Rev. Dr. Hugh Padley's stirring appeal to students to exercise their faith was a clear call to duty. He claimed that there were great possibilities for the country if universities would only become saturated with Christian principles.

A student was stranded at Cartierville when he found that he hadn't the means to go home from the Geological excursion.

1916.—One of the last letters received by the University from Pte. Richard M. Ferguson, gave a graphic description played by the British artillery, which, according to him, was supreme.

Eighteen men of the Senior Football squad of 1914 were reported in khaki. One had already been killed, and others had been wounded while in the service of the Empire.

At the seventh annual meeting of the Clinical Surgical Congress at Philadelphia, Dr. Max Lauterman, of McGill, Med. '95, delivered a very interesting speech. Thorough physical examination every six months as a means of retaining health was used by Dr. Lauterman. The Canadian surgeon said that if a man used half the precautions with his anatomy that he used with his automobile, the general health of the world would be vastly improved. "The time is coming," he went on, "when the care of the national health will be taken up by the Government. Doctors will be permitted to forget money. They will be put on salaries to keep the people well, with pay stopping when the people become sick."

1917.—Prof. J. A. Dale addressed the Delta Sigma Society on Poetry. The lecture was the more delightful in that it expressed so clearly the speaker's own splendid personality and taste.

G. Grosjean, Arts '18, delivered an excellent speech before the Historical Club on Jean Jacques Rousseau's "Contrat Social." Rousseau's "Social Contract" is a rare book; indeed, as the speaker pointed out, "it would be difficult, in the whole range of political theory, to find another book over which more frequent and bitter controversies have been fought. The "Contrat Social" is but a short, incomplete treatise, full, moreover, of inaccuracies, bad logic, and obscure reasoning, but it contains so many ringing passages and truly prophetic utterances that it immediately sent a thrill of popular enthusiasm throughout the western civilized world, and directly affected the destinies of at least two great nations, i.e., France and the United States of America.

1919.—Macdonald College also arranged a programme of entertainment for the Royal Visitor. Following the address in the Hall, the Prince was to inspect the whole College and especially the live stock in the School of Agriculture.

November Second.

1911.—Dowie, Dakin, Hollinsed and McIntosh were the stars of the Track Club for the season of 1910-11. In that season's meet there were over one hundred candidates.

1912.—Many Laval students signified their intention of accompanying the McGill supporters to Kingston and of helping them to cheer the Red and White team to victory. This was the second time that year that Laval had shown their friendly feeling for our Alma Mater.

1914.—Mr. Higginbotham, of Alalahabad, described the poverty of the natives of India. He stated that millions of the abject beings lived on only one cent a day. The returned missionary addressed a large gathering at Strathcona Hall, by which it was evident that he had accomplished wonders among the natives.

A McGill Women's Union was formed to aid all college men going to the front.

In spite of uncertain light, members of the Rifle Club received a good day's practice at Pointe aux Trembles.

Varsity was in a better condition than Queen's, and, although the Presbyterians had the edge in the first half of the play, Varsity halves were able to gain much ground and to turn

TICKETS FOR MED. DANCE RUN SHORT

Was Unavoidable Due to Limited Number.

SUPPLY EXHAUSTED.

Expect Every Man to Spare a Dance For Guests.

It is to be regretted that so many were disappointed in their efforts to obtain tickets for the Medical Dance. This, however, was unavoidable in so far as the number of tickets had to be limited in order to avoid overcrowding. They were sold in order of application for them, and practically all were disposed of within an hour after the sale opened. One or two tickets from one or more of the junior years are expected to be turned in Wednesday evening, and will be re-allotted equally to those classes which are sold out.

Several of the guests, representatives from other universities, have their programmes to be filled. It is not only a matter of college spirit, but an act of unselfishness expected of every man from the three Senior years, to keep one dance open for these guests. Don't wait for your representative to ask you about it. Go to him and tell him the dance you have vacant and he will allot you a dance. McGill has never yet been lacking in her hospitality, and we have a reputation of former years to be kept up.

The committee have spared no efforts for the event of the season on February 4th. All are assured of a good time.

WESTERNERS WILL DINE ON MONDAY

All Who Intend to Go Should Apply Before Saturday.

With the plans of the executive all being realized, the Western Club supper can now be looked forward to as an accomplished fact. The event is one which should be looked forward to with avidity by all the members of the club, and a full attendance be assured. Not only will the dinner come up to the precedent set last year in regard to the tables, the caterer having been given a "carte blanche" in this regard, but the appearance of the Principal should impart a certain degree of formality to the function.

As reported last week, the orchestra, which has appeared to "displease ethereal harmonies" will be present again to carry on in their inimitable way during the serving of the supper, with a possibility of an entertaining few minutes, at least, at its close, through the medium of after-dinner speakers. Thus, the executive is able to report, that, beyond a doubt, a very pleasant evening will be spent.

The executive expressed a desire that all members would, before Saturday noon at the latest, intimate their intention of attending, either by signing the lists posted in the Union and Strathcona Hall, or through their Provincial Representative. This is merely to facilitate the executive in their work, and would be very much appreciated. Excess of attendance, other than that appearing by these means cannot be handled, and it is hoped that everyone will comply with this wish. Remember, the Union, Monday, January 31st, at 6 p.m.

B. W. AND F. MEN WORKING FOR HONORS

Queen's Are Showing Up Well in Work-Outs.

FEB. 1st AND 2nd.

All Aspirants Have Started Intensive Training.

The day of the B. W. & F. eliminations is fast drawing near. By now, all intending competitors have settled down to serious training in their efforts to gain the coveted honor of representing McGill in their class in the forthcoming Assault-at-Arms. This tournament will take place this year in Montreal, so that our men will have the advantage of appearing on the mat, or in the ring, before a home crowd. Teams from Queen's and Varsity will be entered against the Red and White boxers, wrestlers and fencers.

The Presbyterians have already had one set of eliminations, but as these have not found their aspirants in intercollegiate form, they are still turning out in large numbers. A smoker will be staged on the eighth or ninth of February to decide the winners in the respective divisions, and it is from these that representatives for the Limestone City will be chosen.

Among the Kingston wrestlers there is a party of raw material, and only one experienced wrestler. This man is Stewart, of the 140-pound class, who defeated all men of his weight in the Assault-at-Arms at Kingston last winter, and who also came out on top in his bout in the Canadian Olympic trials at Toronto. Stewart will undoubtedly prove a most formidable opponent for our men to beat. Other possible members of the Queen's team are of an uncertain quantity. Hughes, when questioned, could single out no particular individual.

The boxers at Queen's, though not very numerous, have been through a rigorous course of workouts, and, due to their limited number, have received much individual instruction from the two boxing trainers. Among the exponents of the noble art of self-defence, too, there are few old-timers still at the game. Their 118-pounder promises to give a lot of trouble to anyone he may be up against, while among the lightweights two men, Holt and O'Connor, the latter of whom journeyed to Toronto with the Queen's harriers, and both showing up to good advantage. O'Connor is in A-1 condition, and although beaten by Holt in the first eliminations held recently, looks, if anything, the better of the two. He's a hard hitter with his left, and fast on his feet.

At the practice on Tuesday their heavier men did not show up as well as the lighter weights. The coach explained that there were plenty of heavy men around the college who would stand the chance of making the team if they would settle down to hard training.

The fencers are turning out at Queen's also, but as there was only one man present Tuesday, no hints could be obtained. Within the next two weeks the Queen's representatives will journey to Yale and match their skill and strength against those of the American students. We wish the Canadian representatives best of luck.

So far, no "dope" has been around regarding Varsity's prospects, but we may be assured that they will be quite as good as last year, when the Toronto men ran away with the honors in the Assault-at-Arms. However, McGill has not been idle in this line of athletics, and with the present high class of men from which to pick a team, the result of the hints should not be unfavorable to the Alma Mater.

PROPERTY IN CITY VALUED AT \$893,179,797

Total property evaluation of \$893,179,797 in the City of Montreal for the year is shown by the report just submitted by the City Treasury Department. From this total, however, must be subtracted reductions of \$3,494,180, leaving the sum of \$889,685,617.

In 1919 the total evaluation amounted to \$851,628,441, which sum is less by \$38,057,176 than that of the present year.

In 1920 the total of properties exempted reached the sum of \$226,249,403, an increase of \$1,735,582 on the previous year.

The total assessable value of all properties for 1920 is \$663,436,214, as compared with \$627,114,570, an advance of \$36,321,644 on the year 1919.

The revenue from the realty tax, together with the school tax and the tax for the removal of snow amounts in 1920 to \$15,420,435.09, an increase of \$1,213,380.42 over that of last year.

McGILL A. A. FIRST MEET THIS YEAR

M's. Granted to Water Polo Teams.

OTHER AWARDS.

Amendments Were Passed to Constitution and Student Was Suspended.

The first meeting of Athletic Association for the new term was held on Monday last. M's were granted to members of the Senior and Intermediate Polo teams.

The following men qualified for the large plain block M for playing on the Senior Championship team, winners of the Golden Challenge Cup: L. J. Walters, Med. V. F. Foss, Sci. II. G. Vernot, Sci. I. G. H. Fiske, Sci. III. W. H. Laidley, Sci. II. L. Parsons, Sci. II.

The following men who played on the Intermediate team qualified for the second grade plain M: L. Winker, Sci. I. M. Bruker, Com. I. R. S. Wade, Med. II. W. D. Munro, Sci. I. G. McKindsey, Sci. II. N. Owens, Sci. II.

The following men of Medicine '25 have qualified for grade "B" numerals as champions in the Interclass College Basketball series: G. M. White. L. W. Brown. W. N. Turple. G. E. Hilton. G. R. Dempsey. Tinkiss.

Amendments were passed in regard to insignia awards for winners of events in Skiing competitions. Salabery, of Science, was suspended from the Athletic Association for playing Indoor Baseball without first passing the physical examination.

RINK IS SCENE OF TWO GAMES

Arts '23 and Commerce '23 Gain Two Easy-Won Victories.

There were two games played in the Campus Rink yesterday afternoon when Arts '23 and Commerce '23 succeeded in defeating Arts '24 and Dentals '23 respectively. In accordance with the weather the ice on the rink was very suitable, with the result that both games were fast and interesting.

In the first game Arts '23 found out their opponents weak spot, the defence, which did not stay to defend the nets and support the goal-keeper, but were easily drawn out to centre ice. As a result the Sophomores succeeded in scoring eight goals over their less experienced opponents.

Badger, Cantley and Johnson played a very good game for the victors, while Cope starred for the Arts Freshmen and scored one goal, making the score eight to one.

In the second game the Commerce Freshmen defeated the Dental Sophomores to the tune of seven to nothing. The Commerce Freshmen completely outclassed their opponents and succeeded in breaking through their defence with practically no difficulty. The game was rather rough at times when the Commerce men used the boards to good advantage.

The line-up consisted of the following:

Arts '23.	Arts '24.
Amaron.....Goal.....	Blundell
Badger.....Forward.....	Lahue
Cralk.....	Blumenstein
Duval.....Defence.....	Cope
Hutchison.....	Bulgan
Cantley.....Centre.....	Hough

SENIOR SQUAD DEFEATED THE M.A.A.A. REDS

Game Played in Highlanders' Armory.

SCORE: 28—24.

Presence of R. V. C. Girls Much Appreciated By Team.

The McGill Intercollegiate Basketball team defeated the M.A.A.A. Reds last night in one of the most exciting games of the season by the score of 28-24. Both teams played a brand of basketball that might almost be termed perfect. The McGill boys, in spite of the fact that they had played a hard game the previous night, in Kingston, and had undergone a long tiresome train journey, went through this game in fine style, and held the pace well. The only spare man to go on the floor was Crain, who replaced Lashley after he had received a hard knock on the head that somewhat dazed him.

In the first period the Red and White played faster combination than the M.A.A.A.; their shooting was much better, and they doubled the score on M.A.A.A. before the whistle blew for half-time. M.A.A.A. tore right in in the second half, and in the last few minutes of the game had brought their score within two points of the McGill score. In this period the McGill boys had had luck with their shooting, and time and again the ball rolled around the rim of the basket without dropping through for a count. The last few minutes of the game were breathless ones for the McGill supporters, with M.A.A.A. working like Trojans to even matters up, but Eddie Crain shot a nice basket a moment after coming on the floor and made the outcome of the game practically certain. The game was clean and fast, and was a wonderful exhibition of good basketball, with McGill excelling in combination and M.A.A.A. attempting long shots from mid-floor that often went through for the count.

Lashley played a stellar game for the Red and White, and did some splendid shooting in the first period. He was hit on the head in the second half while trying to dodge an M.A.A.A. defence man, and although he carried on for a few minutes, Crain was sent on in his place. Little and Hay played their usual consistent game, but Kemp and Lou Kern of the defence deserve special mention. These two men played a strong defensive game, and intercepted the M.A.A.A. passes again and again. Kern also scored a very opportune basket in the second period.

Drysdale played a good game for the M.A.A.A., his specialty being shooting fouls, and Miller also played a fine game.

The game was played in the Highlanders' gym. This gym contains ample floor space, and if all McGill undergraduates had been as patriotic as the R.V.C., the gym would have been filled with spectators. A large crowd of R.V.C. girls, wearing their becoming red tams, flocked into the gallery just before the commencement of the game, and gave their whole-hearted support to the McGill boys, which helped them a lot in their game. It is too bad that the male students of McGill do not take more interest in the games of our basketball team. They deserve better support, for they defeated a team last night that had not been defeated before this season, and really played a bracing game of basketball that was thrilling to watch.

The game started with the two centres making a foul jump. Little and Drysdale both scored. Then Hay started the scoring for McGill, but Drysdale followed quickly with another shot. Both teams played carefully and took no chances on wild passing. Drysdale failed to score on a penalty shot, but got the ball on the rebound and tallied. Lashley started a streak of shooting and scored four times in succession, one being a particularly difficult shot from the side that dropped neatly through the basket. Then Sanders of the M.A.A.A. scored, but Little tried a shot and made it good. McGill played sure, steady combination that baffled M.A.A.A. Little scored on a long side shot, Drysdale got another penalty, and Lashley ended the scoring for the period, which ended—McGill, 20; M.A.A.A., 10.

M.A.A.A. attacked the McGill basket, but were unable to score. McGill came back strong and rained shots on the M.A.A.A. basket, but could not tally. Then Drysdale opened the scoring for M.A.A.A. Hay took a shot and tallied, but Miller broke away and scored for M.A.A.A. M.A.A.A. tried long shots from centre floor and made good on a few. Lou Kern dribbled the ball down the floor and shot a nice basket. Lashley was hurt and was replaced by Crain. Both teams fought hard, with M.A.A.A. trying hard to even up the score and McGill holding them back well. Crain brought the crowd to their feet by a beautiful shot that gave McGill a

NATIONALS AND McGILL PLAY TO-DAY

Surprises in Line-Up of McGill Expected.

McGILL'S CHANCES.

Shamrock Team Returned Yesterday From Boston Having Scored Victory.

McGill's representatives in the City League meet the Shamrock sextette to-night at the Mount Royal Arena. An unexpected feature of the game will be the probable appearance of "Boo" Anderson and "Flin" Flanagan in the McGill line-up. Both those men turned out to practice yesterday afternoon, and from present indications will strengthen the Red and White squad with their presence on the ice to-night.

The Shamrock team returned yesterday from a trip to Boston where they scored a hard-fought victory over a Boston team. In all probability they are somewhat worn out from their trip, and are not expected to show much speed against McGill. McGill's failure to show in the City League up till now may be attributed to some extent to the tardiness of the men in getting into shape. Jim Cully was unavoidably detained at his home until after the first few games, and is just now rounding into his old-time form. "Boo" Anderson's knee has been bothering him considerably this winter, and he has been unable to turn out previous to this. Naturally, his place on the forward line has been sorely missed, and his addition to the line-up will bring about a big change in the strength of the team.

As yet, McGill's chances in the City League are not altogether hopeless, and a win to-night will give them an opportunity to finish in the first four places and take part in the play-off.

The Intercollegiate League opens on Saturday, when Varsity meets Queen's, and from this game the strength of McGill's opponents will be able to be judged. It is known, however, from Varsity's showing in the O.A.H.U., that they possess a strong team and will be a tough proposition to defeat. McGill opens against them on February 5th, and a very interesting battle is expected.

McGILL DEFEATS OPPONENTS YEST.

Two Decisive Victories Last Night at Molson Hall.

Two brilliant games of basketball was witnessed in Molson Hall last evening. Owing to some misunderstanding the games started somewhat later than scheduled.

The first of the games—McGill Junior "A" team and that of the Argonauts—was very keenly contested. The number of fouls awarded to each team were very few and was due to the very unusual clean play of both teams. Those few fouls that occurred were entirely accidental and were awarded as the rules of the game required.

The game ended in a decisive victory for the McGill team. The final scores being 20-15.

The second game—that of the Intermediate "A" McGill vs. Westmount "Y"—was also very fast and exciting, the especial feature of the game being the accuracy in shooting and passing displayed by both teams. At first these shots seemed an unusual piece of luck but the repeated repetition of these shots left in the minds of the spectators the impression that they were well awarded shots. McGill finally defeated the Westmount Y.M.C.A. by a score of 45-27. The line-up of the teams were:

Juniors "A"	
Rorke.	
Powell.	
Dobson.	
Silver.	
Legg.	
Taplam.	
Joyce.	

Intermediates "A"	
Turpel.	
Scharfe.

The Common Room yesterday was the scene of a very interesting meeting of the Delta Sigma Society. The programme took the form of a contest in impromptu speeches.

Each competitor drew a slip of paper, which indicated the subject of her talk. She was then allowed to retire to the cloakroom and spend two minutes in profound meditation. At the end of that time she returned to deliver her oration.

More than twenty students joined in the contest, and their speeches were wonderfully well-worded and amusing. When the last speech was over, the judges (Miss Nichol, Prof. Brockwell and Mr. Noad) retired to render their decision. They soon returned and Dr. Brockwell, who spoke on their behalf, announced that he and his colleagues considered Miss J. Matheson the best speaker of the afternoon. They thought Miss A. Creelman merited second place and Miss E. McPartlin third.

ALL YEAR LONG

We have preached the doctrine "Patronize our advertisers."

There's a reason.

The people who advertise in The McGill Daily are the people to whom we owe what business we have to give.

They keep us going. We ought to do the same for them.

So give our advertisers a boost every chance you get.

DELTA SIGMA HAD CONTEST MEETING

More Than Twenty Contestants Delivered Impromptu Speeches Yesterday.

The Common Room yesterday was the scene of a very interesting meeting of the Delta Sigma Society. The programme took the form of a contest in impromptu speeches.

Each competitor drew a slip of paper, which indicated the subject of her talk. She was then allowed to retire to the cloakroom and spend two minutes in profound meditation. At the end of that time she returned to deliver her oration.

More than twenty students joined in the contest, and their speeches were wonderfully well-worded and amusing. When the last speech was over, the judges (Miss Nichol, Prof. Brockwell and Mr. Noad) retired to render their decision. They soon returned and Dr. Brockwell, who spoke on their behalf, announced that he and his colleagues considered Miss J. Matheson the best speaker of the afternoon. They thought Miss A. Creelman merited second place and Miss E. McPartlin third.

Miss Matheson's subject was "The

NORTH BRANCH 'Y' DEFEATS McGILL

Intermediate "B" Basketball Lost by Score of 30 to 20.

The Intermediate "B" team was defeated last night in an exhibition game against the North Branch Y. M. C. A. by a score of 30 to 20 in the North Branch Gym. The defeat was due to the superior combination of the winners and the fact that McGill had no subs. There was a delay in starting and the rest period at half time was shortened to three

minutes which acted against our men. It is a safe prophecy that the tables will turn when our team meets the North Branch in the scheduled game which takes place next week.

Moore started the game with a basket. Tinkers scored one point on a free shot which Caldwell followed with a basket. Hollingsworth of the opposing team scored one point on a foul which he soon followed with another free shot. Phillips scored a basket and following one point made by Hollingsworth scored two baskets. Howard and Hollingsworth each scored two points. Moore of McGill scored two points. The score at half-time was 13 to 7 for North Branch.

Clarke began the second half with a field goal for McGill. Hollingsworth made a point and Phillips made a basket.

Tinkers and Moore each made a basket. Smith scored two baskets and was awarded a double foul on which he made two points. Tinkers made one point. Gilbert made a basket and Hollingsworth followed it with one point. Clarke scored two points and Tinkers made two points on a double foul. Hollingsworth scored on a free shot. Tinkers imitated his performance by winning one point. Smith made a basket which Tinkers followed with another. Just before the game ended Gilbert won two points for the North Branch making their score 30 against McGill's 20.
